

It is with great sadness and distress that I have been informed of the possibility that the station I most listen to in my home and in my car may be replaced with a different LPFM broadcaster! Myself and my family receive great encouragement throughout the day listening to our favorite station via 89.5 FM in our town. This station known as Air 1 provides music that is clean! It is not something that I would at anytime be ashamed to have heard in my presence or in the presence of others! They provide music, news, encouraging stories, and a knowledge that they care for their listeners by name, when ever possible. I personally received a phone call during the horrible hurricanes experienced in the Florida area, letting me know that their staff was concerned and praying for my family as well as the many other Floridans. Air 1 provides a wonderful opportunity to listen to great Christian music! The variety of music and the lack of interruptions with commercials are great as well!

The Jacksonville community would be losing a station that provides a wonderful alternative to the vulgarities so often heard on other stations. In addition to the fact that it is not filled with continual sermons and little music. The youth of America really need this alternative. Often stations are listened to after just zipping through stations to bypass having to listen to commercials of other stations and found by the sound of the music or the lyrics they hear. Before you know it you are hooked on a new station!

This is what I want for Air 1 and if you replace it with a LPFM broadcaster, you will be responsible fortaking away the many opportunities for others to enjoy good clean music, wonderful encouraging stories, as well asthe feeling that the people at

Air 1 really care about each listener. They are a peoople station!

Not a money, money, money station! PLEASE DON'T TAKE MY AIR 1, 89.5 STATION AWAY! ! ! !
